

Mon, 03 Dec 2018 22:24:00 GMT effective polynomial computation the springer pdf - Quantum computing is computing using quantum-mechanical phenomena, such as superposition and entanglement. A quantum computer is a device that performs quantum computing. Such a computer is different from binary digital electronic computers based on transistors. Whereas common digital computing requires that the data be encoded into binary digits (0 and 1), each of which is always in one of two states. Wed, 05 Dec 2018 19:01:00 GMT Quantum computing - Wikipedia - In mathematics, the resultant of two polynomials is a polynomial expression of their coefficients, which is equal to zero if and only if the polynomials have a common root (possibly in a field extension), or, equivalently, a common factor (over their field of coefficients). In some older texts, the resultant is also called the eliminant. The resultant is widely used in number theory, either ... Wed, 05 Dec 2018 01:15:00 GMT Resultant - Wikipedia - Various Number Theorists' Home Pages/Departmental listings Complete listing [A | B | C | D | E | F | G | H | I | J | K | L | M] [N | O | P | Q | R | S | T | U | V ... Wed, 05 Dec 2018 05:04:00 GMT VARIOUS NUMBER THEORISTS'

HOME PAGES / DEPARTMENTAL LISTINGS - Business Process Management (BPM) research resulted in a plethora of methods, techniques, and tools to support the design, enactment, management, and analysis of operational business processes. This survey aims to structure these results and provide an overview of the state-of-the-art in BPM. In BPM the concept of a process model is fundamental. Thu, 06 Dec 2018 20:26:00 GMT Business Process Management: A Comprehensive Survey - Preface. This is the preprint of an invited Deep Learning (DL) overview. One of its goals is to assign credit to those who contributed to the present state of the art. I acknowledge the limitations of attempting to achieve this goal. Deep learning in neural networks: An overview - ScienceDirect - Type or paste a DOI name into the text box. Click Go. Your browser will take you to a Web page (URL) associated with that DOI name. Send questions or comments to doi ... Resolve a DOI Name -
